

# COMMERCIAL DISINFECTING SERVICES

.....

## Hospital-Grade Disinfectant

.....

We use a safe and natural disinfectant that is hospital-grade.

You can feel confident that the disinfectant will get the job done, while not exposing your employees, students, patients or clients to harsh chemicals.

**Disinfection Service Price**  
**.25/sf**

**If you have an Coronavirus (COVID-19) outbreak at your business or facility, don't treat it lightly.**

**You need to call the right people to help with disinfecting.**

Water Extraction Experts offers local disinfecting services to help you with decontamination after a Coronavirus outbreak. We can treat businesses, offices, commercial establishments, schools, daycares, long-term care facilities and senior care facilities.

We use a disinfectant from the EPA Approved Disinfectant List. We use this product in a spray mist form to treat airborne viruses, as well as allowing for direct contact to hard surfaces without the possibility of cross-contamination.

## WHY CHOOSE US

.....

Water Extraction Experts is a local, family-owned business. We have experience in disinfecting facilities after bacterial and viral outbreaks. You can count on us.

We understand the urgency of an outbreak and we are available for decontamination 24/7.

Water Extraction Experts is IICRC Certified. To be certified, we mastered coursework in inspections, cleaning, and restoration. BBB Certified A+.
